### **INSTALLATION INSTRUCTIONS:**

1. The Dome LED comes with a cigarette plug connector already pre-attached.
2. Mount the unit to your vehicle by placing it on top of your vehicle.
3. It will magnetically attach to your vehicle.
4. Plug in the cigarette plug to your connector inside the vehicle to power up the unit.
5. If hard wiring the unit, cut off the cigarette plug and use the red (+) and black (-) cables as your power cables.
